CELLO-PACK
SPECIALTY FILMS & LAMINATION

TRINITY
GLOBAL 

November 30th, 2012

To all Trinity Customers & Sales Agents,

We are pleased to announce that Trinity Packaging Corporation has finalized the purchase of Cello-Pack Corporation of Buffalo, NY. The acquisition enables Trinity to further its expansion in 10-color flexographic printing, specialty films and lamination. This is a union of two storied New York based businesses with 160 years of bag manufacturing experience between them; Trinity was founded in 1917 and Cello-Pack in 1948. The specific details of the transaction will not be made public as both companies are privately held.

Cello-Pack Corporation has been providing superior flexible packaging solutions for more than 60 years. With a reputation of excellence and innovation, Cello-Pack currently manufactures for several core markets including Pet Food/Pet Care, Meat/Dairy, Consumer/Non-Food, and Food/Beverage. With significant capital investments over the past five years, Cello-Pack is one of the fastest growing companies in the industry and has full service capabilities including design, engineering, pre-press, printing, laminating and pouch converting.

The purchase of Cello-Pack Corporation allows Trinity to increase its value-added offerings to our existing customer base while expanding on our current capabilities. This is an exciting opportunity for everybody involved as the synergies between the two organizations cannot be understated. Cello-Pack Corporation will become *Cello-Pack Specialty Films and Lamination – A Division of Trinity Packaging Corporation*.

We will be sending additional information relative to this transaction in the coming days and in the meantime, please feel free to contact your Trinity representative.
